Re: Status of File, Dove Pass Quarry, S/003/019, Box Elder County, Utah

Dear Mr. Hamm:

Thank you for submitting your 1995 annual report for the Dove Pass Quarry, file number S/003/019 and Idaho Stone #1-4/Starlight, file number S/003/023.

The Dove Pass Quarry report states that you no longer own these claims. Dropping your claims does not relieve you of the responsibility for reclaiming the site. As you are the designated permittee of this quarry, the Division still holds you as the responsible party for reclamation until such a time as the site has been satisfactorily reclaimed and you have been officially released by the Division, or until you transfer the permit to another party who will assume mining and reclamation responsibility for the site.

Enclosed is a transfer form (MR-TRS) if you desire to take the latter approach. Both parties will need to complete the transfer form, have it notarized and then return it to us for formal release. If you have reclaimed the site and wish to be released from your reclamation obligations, a site inspection will need to be performed to determine reclamation success, before release may be granted. Please notify us to schedule a mutually convenient date and time for an inspection if this is the route you wish to take.

Please contact me or my supervisor Wayne Hedberg, if you have any questions regarding this letter.

Sincerely,

Lynn Kunzler
Reclamation Specialist

jb
